COVID-19 Update

We hope this letter finds you and your family in good health. Our community has been through a lot over the last few months, and all of us are looking forward to resuming our normal habits and routines.

While many things have changed, one thing has remained the same: Our commitment to your safety.

Infection control has always been a top priority for our practice. Our infection control processes are made so that when you receive care, it's both safe and comfortable. Our office follows recommendations made by the American Dental Association (ADA), U.S. Center for Disease Control and Prevention (CDC) and OSHA. We are up to date on any new rulings or guidelines that may be issued.

To help protect you and our staff you may see some changes when it is time for your next appointment. For example, our office will ask some screening questions and take an external forehead temperature prior to your appointment. We will reduce the number of patients in the waiting room at one time and will have hand sanitizer for your use. Our waiting room will no longer offer magazines, toys, etc. since those items cannot be properly cleaned and disinfected. Appointments will be scheduled to allow for social distancing between patients. This might mean you are offered fewer options, but we will do our best to reduce waiting time for you.

We look forward to seeing you again and are happy to answer any questions you may have. To schedule an appointment, please call our office at (616) 454-9091. Please visit our new website at www.BreenFamilyDentistry.com for further information on us and the steps we're taking to protect you.

Thank you for being our patient. We look forward to welcoming you back!

Sincerely,

Breen Family Dentistry
